Report of visit

1. On 14 November 1961 certain members of the OTR Education Committee and their guests visited Dr. Acker, Chief, Instructional Methods Branch, U.S. Army Engineer School, Ft. Belvoir, Virginia.

2. The purpose of the visit was to acquaint the Committee members with the Engineer School's training facilities, methods of instruction, and programs of training, including instructor training.

3. Dr. Acker did a very effective job in planning for our visit and acting as a host. I believe all the Committee members, although representing diversified interests, received considerable information and benefit from observing how a "sister" training organization functions. A letter is being drafted for DTR's signature expressing our thanks.
